

TransAct Packager 5.4.1

Maintenance Release Notes

TAP v5.4.1 Build 25213
March 18, 2015
Part# 235- 0416 -01 Rev. A

Copyright (c) 2015 RGB Networks, Inc. All rights reserved.

1. Upgrade Designation

TAP 5.4.1 is an OPTIONAL point release to address reported core dumps occurring within a customer specific environment.

2. Release Overview

TAP v5.4.1 is a maintenance release for RGB's TransAct Packager.

3. Resolved Issues

Bug No.		
Issue	TAP-3551	Occasional core dump due to shared memory issue
Resolution		Added additional checks to HwInfo Shm code to validate values returned from Shm find() calls. Ensure they are not NULL before trying to process returned value.
